Alexander Morton

McDonough, GA 30253 | 678-927-7661 | mortonscout12@gmail.com | mortondataportfolio.netlify.app

PROFESSIONAL SUMMARY

Entry-level data analyst who prepares data, defines calculations, documents limitations, and builds clear tools around results. Portfolio work uses Python, SQL, SQLite, Excel, Google Sheets automation, and React. Brings four years of resident-facing service, accuracy, teamwork, and calm problem solving in a retirement-community setting.

DATA SKILLS

Tools Python, SQL, SQLite, Microsoft Excel, Google Sheets, Apps Script, React, Google Workspace
Methods Data preparation, reconciliation, descriptive analysis, data visualization, spreadsheet automation, validation rules
Strengths Customer service, written communication, organization, teamwork, attention to detail, problem solving

SELECTED DATA PROJECT

Online Retail Performance Analysis | Independent Portfolio Project 2026

- Analyzed 541,909 retail rows with Python, SQL, and SQLite to examine revenue, cancellations, product mix, geography, and customer frequency.
- Classified and reconciled the data, excluding 5,268 duplicate copies from metrics while retaining them in an auditable database.
- Published an Excel report and React dashboard backed by a validated, versioned data contract with exact Python-SQL agreement.

RELEVANT EXPERIENCE

Retirement Community, Georgia

Dietary Aide 2026 - Present

- Support meal service, communicate residents' dietary requests accurately, restock supplies, and maintain clean food-service areas.

Server Jul 2022 - 2025

- Provided dependable dining service to residents while balancing changing priorities and communicating clearly with residents and coworkers.

Spreadsheet Designer | Freelance / Self-Employed Oct 2023 - Sep 2025

- Designed reusable spreadsheet templates for personal and small-business tracking needs.
- Structured data-entry layouts and applied formulas, formatting, and basic automation to make information easier to maintain and review.
